Examination of Application #09/788,219

1. Claims 1-47 of application 09/788,219, filed on 16-February-2001, are presented for examination. This application is a Continuation of application no. 08/912,427, filed on 18-August-1997, now U.S. Patent No. 6,219,628. This paper is in response to applicant's RCE and IDS filed on 8-October-2003, after the present application was allowed on 8-July-2003.

Information Disclosure Statement

2. The information disclosure statement filed on 8-October-2003 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

The examiner respectfully notes that the file wrapper of the present application does not contain copies of the references cited on the IDS received as a result of the filing of the RCE. The examiner understands that applicant may have submitted the copies as stated on the face of the RCE Request Transmittal, but for unknown reasons the copies did not make it into the application file. The examiner regrets any undue burden placed on the applicant, but nonetheless, a second copy of each reference is hereby requested. The PTO-1449 submitted by applicant indicates the references have not been considered, but the examiner will gladly consider the references when they are matched with the file.
